a. It is unlawful to operate any burglary or robbery alarm system as defined herein without obtaining and maintaining an alarm user permit. The alarm user must apply for a permit within ten (10) days of installation. An alarm user permit is obtained through the Tyler Police Department and entitles the holder to operate all alarm systems described herein at a single alarm site. Each permit issued shall be for a one-year period with the issue date being the first day of the month in which the application was submitted. The permit shall be physically upon the premises using the alarm system, and shall be available for inspection. An alarm registration shall expire one year from the date of issuance, and must be renewed by submitting an updated renewal application. Renewal permits may be acquired by filing a renewal application along with a renewal fee with the Coordinator on or prior to the first (1st) day of the anniversary month that the last permit was obtained. The Alarm Coordinator shall send notification for renewal approximately thirty (30) days prior to the registration expiration date. It is the responsibility of the alarm user to submit an application prior to the registration expiration date. The user shall acknowledge in the renewal application that all information in the original application is current, or if not current, the applicant shall update all incorrect entries. All past due fees and fines must be paid prior to renewal.
