January 2021 Parks & Recreation Newsletter

Arbor Day will take place Jan. 16 from 10 a.m. to noon at Woldert Park, located at 701 W. 32nd St. Pre-registration is required and spots are limited. To register, please visit <http://bit.ly/ArborDayTyler2021>. For updates, visit the [Tyler Trees Committee webpage](#).

Don't just toss your Christmas tree out this year! Recycle it! Each year the City of Tyler Solid Waste Department and Keep Tyler Beautiful provide two locations for Christmas tree recycling. Residents can drop off their undecorated, non-flocked natural Christmas trees in the designated areas at Golden Road Park and Fun Forest Park in Tyler.

For more information, contact Belen Casillas, Keep Tyler Beautiful Coordinator at [\(903\) 531-1335](tel:(903)531-1335) or email [bcasillas@tylertexas.com](mailto:bcasillas@tylertexas.com).

Golden Road Park is located at the intersection of McDonald Road and Golden Road. Fun Forest Park is located in the 900 block of North Glenwood Boulevard.

The trees at the parks are available for area fishermen to pick up and sink in nearby lakes to create fish habitats. Small fish eat the aquatic insects that find a home in the tree branches. The fish also use the trees as a hiding place. As a result, the fishing is improved around the "recycled trees" because more fish congregate in these areas.

Christmas trees will also be picked up at the curb for disposal at the landfill. Only non-flocked natural trees deposited at Fun Forest Park and Golden Road Park will be recycled. Flocking and tinsel may be hazardous to the fish and waterfowl. Flocking may also contribute to water pollution.

Christmas lights and other electrical type products are accepted at the recycle center located at 418 N. Bois D'Arc Ave. Metal Christmas Trees are **not** accepted at the recycle center.

## Faulkner Skate Park temporarily closed for construction

The Faulkner Skate Park is temporarily closed for construction beginning immediately. The construction is to expand the existing skate park and construct Phase II of the project, which will take 10 to 12 weeks, depending on the weather.

"We are excited to see Phase II implemented," says Russ Jackson, Director of Parks. "When the plan is complete, we will have over 14,000 square feet of skating space, picnic tables and a viewing area for spectators."

Phase I of Faulkner Skate Park was completed in 2019. For additional information about Parks and Recreation, please visit our website at [TylerParksandRec.com](#).
